### Personal Statement

Conscientious individual with an avid interest in computer science. Problem-solving and continuous learning within the software industry is the reason I decided to pursue a career in software. This led me to re-ignite my programming journey at the beginning of this year with Python, solving problems on different coding websites and using resources like FreeCodeCamp to learn. Then I heard about Northcoders and switched to Javascript and haven't looked back since. Please feel free to check my Github where you can see where I started, compared to my most recent projects.

### Technical Skills

- **Language(s):** JavaScript, using Node.js and browsers as environment
- **Testing:** TDD, Jest, Supertest
- **Back-end:** SQL, PSQL and Firebase
- **Front-end:** HTML, CSS, Svelte and React
- **Hosting:** Render and Netlify
- **Version control:** Git and GitHub
- **Soft skills:** paired programming, adaptability, technical communication, agile, and SCRUM methodologies

### Professional Experience

#### **Trainee Software Developer**

**Northcoders, Manchester/Remote**

08/2023 - 11/23

An industry-leading Boot Camp that teaches software engineering, we also have to carry out various projects using industry-leading methods like Test Driven Development and Model View Controller (MVC) for server-side Development.

- Used APIs to parse data and manipulate data with asynchronous code and promises
- Learned about all the fundamentals of programming (classes, recursion, closure, array methods, etc.)
- Learned how to use Git version control in pair programming sessions
- Use agile methodologies to work through my tasks
- Created our own fullstack application in a team of 5 - PlayPals in an 8 day period and presented this to our seminar group - [repo](#) and [demo](#).
- Created a Front-end application for my web application - [repo](#) and [hosted site](#).
- Created a back-end API for my PSQL database - [repo](#) and [hosted site](#).

## **Spare Parts Advisor**

**Pentland Wholesale, Blackburn**

08/2021 - 08/2023

A refrigeration and catering distributor that provides equipment nationwide.

- Liaise with thousands of different refrigeration companies nationwide to provide spare parts
- Collaborated with suppliers across the globe to purchase different spare parts for our products
- Provided sales support for over 8,000 different refrigeration components for different brands and models
- Consistently reach sales targets for the company
- Consistently updated data within the company using formulas to update prices to make them more beneficial for the company

## **Administration Apprentice/Assistant**

**Spire (Preston) LTD, Preston**

09/2018 - 07/2021

Spire (Preston) LTD is a charity that supports adults with learning disabilities

- Updated Databases and scanned critical confidential information to upload to our database
- Dealing with new applicants, including DBS checks as well as inductions and training
- Raising invoices and dealing with financial queries

## **Education/Qualifications**

### **NVQ Certifications in Business Administration**

**Paragon Skills**

09/2018 - 08/2021

Level 2 and Level 3

### **GCSEs**

**Ribblesdale High School, Clitheroe**

09/2012 - 06/2017

Mathematics (6), English (5), English Literature (5), Core Science (C), Additional Science (C), Computer Science (C), Religious Studies (B), History (B)

## **Hobbies and Interests**

Before Northcoders one of my main hobbies was programming where I would create my own projects. I also used codewars to rank up through the kyu's, feel free to check out my profile [here](#).

I also enjoy working out and going on long drives with my friends to different cities on the weekend to do fun activities like go-karting and doing escape rooms, as well as sightseeing.
